INTRODUCTION

Hi Joshua,

Thank you for the opportunity to provide you with a quote for your project. Please find your estimate below along with upgrade options for potential improvements to your project, if applicable.

The following estimate is for:

1. Remove and disposal of old materials
2. Supply and install new materials
3. Clean up of entire work area (all nails and other materials)
4. Clean all gutters (if roof is done)
5. Your own dedicated Production Scheduling team
6. All workers are employees of Classic Roofing and Construction
7. We are Licensed to work in your geographical region
8. Audit of all work completed by Quality Control Officer
9. Extended warranties available with every roof

We don't want you to be personally liable should a worker happen to get injured therefore we maintain current insurance for all employees and crews. We carry \$1,000,000 in liability insurance and workers compensation insurance (the state minimum is \$300,000).

As well, we have mandatory safety training for our staff to ensure safe practices always. Once the job is complete, complete an additional full inspection on your home to ensure we did everything correct and up to our strict standards and site is spotless.

If you have any questions, please give me a call. We always want to provide the best value to our clients. If we are outside your budget, please let me know and we will do our best to work within that.

Kind regards,

Dan Canalungo I

with Triple Layer Protection®

THE PROOF IS IN THE PERFORMANCE

Proven performance is what truly sets Owens Corning® architectural shingles above the rest. We brought our Duration® Series Shingles into the lab to test their performance against wide, single-layer nail zone shingles in three major strength tests. And in each test, the Triple Layer Protection® of SureNail® Technology outperformed the competition where it matters most—in the nailing zone.

THERE'S A LINE BETWEEN A GOOD SHINGLE AND A GREAT SHINGLE.®

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail® Technology, only from Owens Corning.

Excellent Adhesive Power

Helps keep the shingle layers laminated.

Outstanding Grip

The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond®** sealant for exceptional wind resistance of a 130-MPH wind warranty.*

Breakthrough Design

Patented SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

"No Guess" Wide Nailing Zone

This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

Triple Layer Protection*+

A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against "nail pull" from the wind.

Double the Common Bond

SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

If any provision of this agreement should be held to be invalid or unenforceable, the validity and enforceability of the remaining provisions of this agreement shall not be affected thereby. **[JS]**

LIQUIDATED DAMAGES: If this agreement is cancelled pursuant to Section A above, Company shall within ten days after cancellation tender to Customer any payments, partial payments or deposits made by Customer, except for amounts reasonably necessary to prevent damage to the property. **[JS]**

Owner and Contractor hereby agree that contractor is not responsible for rectifying or repairing any prior work that was not to code or properly permitted, even if the work contractor damages the items that are not compliant. The parties acknowledge that had the work been constructed to proper building codes and/or permitted properly, any and all damage that contractor may cause could have been prevented. Further, Owner and contractor hereby agree that any damage to the home during construction which is primarily due to conditions not up to present building codes or not properly permitted, is the sole responsibility of the Owner to repair/replace/fix. Any damage during the work contemplated herein that is due to any prior defective work by others or concealed, unknown or unusual conditions shall not be the responsibility of Company. The Contract Price has been based on normal conditions, without allowance for any extra work that might be caused by unanticipated conditions. If Company encounters any conditions that require extra work, the cost for this additional work, plus Company's overhead and profit, shall be added to the Contract Price. **[JS]**

The maximum allowable retainage for any punch-out will be 5% of the original contract price. I understand and agree that the final inspection is not considered punch out and I cannot hold payment while waiting for a final inspection. **[JS]**

I understand that payment for the project is due the SAME DAY the project is completed. I agree to have a check for the project amount ready the same day the project is completed. Any additional charge for wood or extras will
